

Shaping medicine for the future

Join us at the cutting edge of medical innovation

The National University Health System (NUHS) is an integrated Academic Health System and Regional Health System in Singapore that delivers value-driven, innovative and sustainable healthcare. Institutions in the NUHS group include three hospitals – National University Hospital, Ng Teng Fong General Hospital and Jurong Community Hospital; three National Specialty Centres – National University Cancer Institute, Singapore, National University Heart Centre, Singapore and National University Centre for Oral Health, Singapore; a polyclinic group – the National University Polyclinics; one medical centre – Jurong Medical Centre; and three academic health sciences institutions – National University of Singapore (NUS) Yong Loo Lin School of Medicine (including the Alice Lee Centre for Nursing Studies), NUS Faculty of Dentistry and NUS Saw Swee Hock School of Public Health.

Resident Physician, Department of Medicine

The Department of Medicine, University Medicine Cluster is seeking candidates who are highly motivated and willing to join us for a challenging and fulfilling appointment as Resident Physician.

The Resident Physician will work within the Division of Advance Internal Medicine (AIM) as part of the Department of Medicine. The Division of Advance Internal Medicine is comprised of 12 faculties, trained in both General Internal Medicine and Medicine Sub-Specialties, who deliver care to inpatients and outpatients. The division excels in healthcare delivery innovation, teaching and research, and the culture is collaborative and warm.

You will be responsible for the overall supervision and day-to-day running of the Alexandra Campus inpatient clinical service. This is a new campus for the NUHS cluster comprised currently of 3 groups of patients, acute medical patients, acute/sub-acute care wards, with a focus in multi-disciplinary team approach to chronically ill patients who have complex social needs, and those with cancer and palliative care needs. You may also be responsible for the supervision and teaching of House Officers, Medical Officers and other Trainees. You will also have significant autonomy in your role while working closely with supportive supervising consultants. You will report to the AIM Head of Department.

Candidates must have completed basic specialist training and possess registrable postgraduate qualification with the Singapore Medical Council. Candidates must also complete 1 year of housemanship and 3 years of medical officer posting.

Successful candidates must demonstrate good diagnostic and clinical management acumen. He/She must embrace teamwork, respect, integrity, compassion and excellence in his/her work.

Interested candidates are invited to submit a full CV including personal particulars, names of 2 referees, professional qualifications, career history, email address, telephone numbers together with medical testimonials and certificate of registration to:
